

Festival Performance Application

Hi,

I see you are moving ahead with your great festivals featuring original and popular music. Our act is very interested in performing at your festivals. We are regional (St Augustine, FL) and have been performing at original music and public event festivals. We perform at all types of festivals including the large music festivals sponsored by the Songwriters Showcases of America and others. We will enthusiastically entertain your attendance and assist in promoting the theme of your festival.

Our current show format for this Fall/Spring season is acoustic and electric guitar, percussion (traps, congas and djembe) by David Mathew and fretless bass guitar with lively vocal harmonies by Ray Ploutz. We will add a full traps kit and additional stage sets and instrumentation for larger shows. My EPK is attached below and the websites in the signature block include links to sample my original work. These recordings have received significant airplay on SiriusXM, Deezer and over 10,000 streams and 15,000 followers on Spotify in the last month.

Please advise if you may have an opening in your schedules for our act. It would be an honor to perform at your festivals and contribute. Please let me know.

Thank you, John
